WI-125 LED Indicator with Keypad and LED Display

Features and benefits

Six function keys— No confusing functions. Train operators in minutes.

LED display— Bright, crisp, fast-reading. Speeds weighing process and reduces operator error.

NEMA 4X washdown— Stainless steel enclosure provides corrosion and washdown resistance to rough indoor and outdoor use.

Numeric keypad— Makes tare entry more flexible. Enter known weights from the keypad, or use the TARE key to enter container weights.

RS-232 serial port— Provides link with printers and computers.

Remote key inputs— Logic level inputs for Zero, Print, Tare.

Print formatting— Customize your printout with company name, message, character size and location, etc. right from the front panel.

Heavy-duty swivel mounting stand— Adjust the display quickly to the best sight line.

RFI protection— Provides stable weight readings in environments with moderately high levels of RFI radiation.

Single channel accumulation— Prints each weightment individually, then provides count and total weight.
