

Premier Service Plan

Kennedy Scales, Inc. service staff and our team of factory trained and state certified technicians offer over 100 years combined experience to meet your weighing service needs. Whether it is installation, emergency service, or routine/periodic service provided by our Premier Service Plan, we offer service on weighing equipment; from micro and analytical balances to truck and rail scales and everything in between. We have what it takes to properly maintain your weighing equipment.

Our Premier Service Plan provides periodic maintenance and calibration of your weighing equipment and takes the worry out of making sure your weighing equipment is accurate and performing efficiently. Whether it is monthly, quarterly, or semi-annually, we provide an updated equipment list upon the completion of each visit from our customer equipment database. We can also provide calibration reports and standard operating procedures to meet your ISO requirements. Each of our technicians is equipped with test standards that are certified annually.

Features of our Premier Service Plan include:

- Service within 24 hours on repair calls.
- We contact you in advance to schedule your periodic maintenance; which saves you the hassle of having to call us to schedule your weighing equipment maintenance.
- No obligation, no time commitments, no strings attached!

Our Goal is Customer Satisfaction

Please contact us for a free site and equipment evaluation, or to receive the benefits of our Premier Service Plan.
